DRIPAR GUPTA

SOFTWARE ENGINEER

gd875665@gmail.com | +91 8756653868 | linkedin.com/in/dripar | dripar.github.io/Dripar/

PROFESSIONAL SUMMARY

Software Engineer with 3.5+ years of experience in PHP (Laravel) specializing in application development, REST APIs, and scalable backend systems. Experienced in coding, debugging, testing, and deploying web applications on cloud/VPS environments. Advanced expertise in AI-driven development and the full Software Development Lifecycle (SDLC).

EDUCATION

Master of Computer Applications (MCA) - Mangalayatan University | 2024 (Percentage: 71%)

PGDCA - Subharti University | 2021 (Percentage: 65%)

Bachelor's Degree (Graduation) - State University | 2020 (Percentage: 52%)

Senior Secondary (12th) - UP Board | 2017 (Percentage: 70%)

Secondary (10th) - UP Board | 2015 (Percentage: 72.5%)

TECHNICAL SKILLS

- **Languages & Frameworks:** PHP (Laravel), JavaScript (Vue.js, Node.js), Python (Django), C
- **Web Technologies:** HTML5, CSS3, AJAX, JSON, REST APIs, Bootstrap, Responsive Design, Payment Gateways (Razorpay), Shipping APIs (Shiprocket)
- **Tools & Databases:** Git, GitHub, Bitbucket, Postman, MySQL, Data Structures
- **Cloud & DevOps:** Basic AWS (S3, EC2), DigitalOcean, VPS Deployment, Docker, CPanel, Release Management
- **Core Concepts:** SDLC (Software Development Lifecycle), OOP, MVC, Application Development, Unit Testing (PHPUnit), Integration, Debugging, Technical Support
- **SaaS Solutions:** Experience in building and maintaining SaaS-based package solutions and scalable architectures
- **AI & Machine Learning Integration:** OpenAI API (GPT), Gemini API (Google), Claude API (Anthropic), Prompt Engineering, RAG (Retrieval-Augmented Generation)
- **AI Developer Tools:** GitHub Copilot, Cursor AI, ChatGPT, Midjourney

PROJECT WORK

- **UnoPim (Product Information Management)**: Specialized in centralizing, managing, and enriching product data across multiple channels. Managed complex product catalogs, attributes, and categories for multichannel distribution.
- **Bagisto (E-commerce Framework)**: Developed custom packages and integrated flexible payment and shipping providers into the Laravel-based e-commerce platform to streamline order fulfillment.
- **Collage Management (Student Data)** web application in PHP.
- **Login Model (PHP)**: Implemented a login system in PHP with support for multiple login models.
- **Parent-Teacher Communication and Activity Tracker**

- **Doctor-Patient Communication Tool**
- **Kanram Academy**: Developed a web application using Laravel for managing student data and blog posts. Implemented a blog section in the admin dashboard for easy content management.
- **SeedTree Admin Dashboard**: Created and currently maintaining an admin dashboard using Laravel, facilitating efficient project management and data handling.
- **E-Commerce:** Developed a robust e-commerce platform with features like product management, payment gateway integration, and user-friendly interface.
- **HRMS:** Developed a comprehensive Human Resource Management System for managing employee data, payroll, leaves, and performance tracking.

API WORK

- **API Integration:**
  - **Gmail Login API:** Implemented Gmail Login API for user authentication via Gmail accounts.
  - **Apple Login API:** Integrated Apple Login API for seamless authentication using Apple IDs.
  - **Facebook Login API:** Implemented Facebook Login API for user authentication via Facebook accounts.
  - **SMS API:** Integrated SMS API for sending notifications and alerts via text messages.
  - **Rapid Cricket API:** Integrated Rapid API for Cricket data retrieval and analysis in the Fantasy app "Googly 11". This API provides real-time cricket data, including match scores, player statistics, and team performance, enhancing the user experience by offering up-to-date information for fantasy team selection and match analysis.
  - **Shiprocket:** Integrated Shiprocket for efficient order management, enabling seamless order processing, real-time shipment tracking, and delivery status updates. This ensures timely deliveries, enhances user experience with accurate shipping information, and reduces delivery-related issues for Styliv users.
  - **Razorpay:** Integrated Razorpay for secure online transactions, offering users a smooth payment experience via credit/debit cards, net banking, and wallets. This ensures compliance with security standards, enhancing user trust and facilitating reliable payments on the platform.

- **APIs Created for app**
  - **Kidseau App API:** Developed API for facilitating communication between parents and teachers in the "Kidseau" app. This API enables features such as daily activity tracking, school feeds, and messaging system for real-time chat between teachers and parents.
  - **Fantasy Cricket API:** Created API for "Googly11.in" fantasy cricket app. This API allows users to create teams, join contests, and view live player scores during matches.

EXPERIENCE

SOFTWARE ENGINEER

Webkul / January 2025 - Present (Noida, Uttar Pradesh, India)

- Conceptualizing and developing scalable backend solutions for SaaS-based E-commerce and PIM systems.
- Specialized in centralizing, managing, and enriching product data across multiple channels (Akeneo, UnoPim, Bagisto).
- Designed and integrated REST APIs and custom package-based solutions for flexible payment and shipping providers.
- Performed robust API testing using Postman to ensure seamless service integration and high availability.

BACK END DEVELOPER

Alobha Technologies Pvt. Ltd / June 2024 - December 2024 (Noida, Uttar Pradesh, India)

- Developed a multi-vendor E-commerce platform (Styliv) with integrated Razorpay and Shiprocket, focusing on scalable backend architectures.
- Designed and implemented a comprehensive SaaS-based Human Resource Management System (HRMS) handling employee data, payroll automation, and multi-level leave approvals.
- Deployed and maintained applications on cloud/VPS environments (AWS, DigitalOcean).
- Implemented basic unit testing (PHPUnit) and integration testing for core features.

BACK END DEVELOPER
NDMEAA (A.A.P.S Ecommerce World Pvt Ltd) / November 2023 - May 2024 (Lucknow, Uttar Pradesh, India)

- Led the backend development of "Googly11", a fantasy cricket app using PHP Laravel.
- Integrated Rapid API for real-time live match scores, player statistics, and team performance tracking.
- Developed scalable APIs to allow high-concurrency users to reliably create teams and join live contests.

BACK END DEVELOPER
Locgfx / September 2022 - November 2023 (New Delhi, Delhi, India)

- Developed APIs and comprehensive admin dashboards with multi-login support for SaaS communication tools like "Kidseau".
- Collaborated on "Ataraxis", a Tele-health SaaS platform, implementing video calling and appointment booking systems.
- Streamlined processes by delivering digital solutions for "SeedTree" project management module.
- Debugged and resolved critical backend issues to improve overall system performance and stability.

CERTIFICATIONS & LEARNING

- **PHP (Laravel) Certification** - Global Certification in Application Development
- **REST API Design & Integration** - Advanced Web Services Specialist
- **Cloud Foundations (AWS)** - Basic Proficiency in Cloud Deployment

PERSONAL PROFILE

- **Name**: Dripar Gupta
- **Father's Name**: Shiv Kumar Gupta
- **Date of Birth**: 20-April-2000
- **Gender**: Male
- **Permanent Address**: Sikaro Koraon, Allahabad (Prayagraj), Uttar Pradesh 212306
- **Nationality**: Indian
- **Marital Status**: Unmarried
- **Hobbies**: Coding, Language Learning, Traveling, Listening to Songs

DECLARATION
